WORK EXPERIENCE

Research & Analytics Intern | Corbin Advisors - Farmington, CT, USA

July 2025 – August 2025

- Led an intern project to improve perception study transcription process, resulting in a 450 hour per year reduction in turnaround time and a projected \$100k per year saved.
- Conducted competitive intelligence and market research to support client deliverables, strengthening investor relations strategy recommendations.
- Developed automated SQL workflows in Snowflake to streamline perception study data formatting and reporting, saving significant manual processing hours.

Data Science Intern | Corbin Advisors - Farmington, CT, USA

July 2024 – August 2024

- Built a real-time stock scraper with JavaScript and Yahoo Finance within Google App Scripts, cutting research time across 200+ tickers.
- Transformed 10K+ financial data rows in Excel/BI dashboards, improving report accuracy by 25% and enabling faster investor insights.
- Automated repetitive HR emails with Microsoft Power Fx, reducing streamlining communication for 25+ employees.

LEADERSHIP AND ENGAGEMENT

Digital Ambassador | International Business Seminars – Europe

May 2024 – June 2024

- Completed a 21-day global business immersion across 7 countries, engaging directly with executives in finance.
- Participated in site visits and panels to explore international business strategy, operations, and regulatory frameworks.
- Gained exposure to how global markets, policy, and culture influence business strategy and decision making.

Co-Founder | The Vanguard Initiative – Atlanta, GA, USA

May 2024 – Present

- Founded a strategic mentorship initiative to improve academic and leadership outcomes for underrepresented students.
- Led cross-functional planning for a campus-wide kickoff event featuring panels with alumni, faculty, and student leaders.
- Developed targeted programming aligned to critical inflection points (freshman entry, junior-year prep, college planning).

PROJECT WORK

Drilr | Solo Development

- Built an AI-powered study tool that auto-generates personalized quizzes from class notes in seconds.
- Increased retention & engagement for early users by turning static material into interactive practice.
- Designed scalable platform blending edtech + AI, targeting students seeking faster, smarter prep.

BullBrief | bullbrief.pro | Solo Development

- Developed a web tool that creates AI-powered digests of public companies using real-time stock data and financial metrics.
- Integrated GPT-4 and the yFinance library to generate investor-ready summaries of business models and financial health.
- Designed a responsive modern UI with dynamic ticker input and performance optimized data rendering for fast insights.
